Young People's Fund 2 Local Grants

This £38m programme will support local projects which involve, improve services for and change the lives of young people aged 10–18 (up to 25 if they are finding the change to independent living difficult).

Projects should relate to the Every Child Matters outcomes by providing young people with opportunities to: be healthy; stay safe; have improved economic well-being; make a positive contribution and enjoy and achieve in life. In addition, Big Lottery Fund has added its own key outcomes for projects, there are:

- Involve young people in developing, running and reviewing policies and services
- Improved young people's services
- Understand the needs of young people better
- More able to involve young people

This programme will only consider projects that are youth-led. Bids can only be submitted by voluntary and community sector organisations (not schools, colleges or the statutory sector). Grants will range from £10,000-£500,000 to support activities and services lasting between 1-5 years (in total about 100 grants are likely to be allocated). Groups who are looking to develop a project funded under YP1 will be a lower priority. This is not the case for previously funded groups bidding for different work.

Organisations can apply for up to £50,000 to develop land or buildings. The land and building developments should cost no more than £200,000 in total. Outline proposals can be submitted at any time until the 16 October 2008. **Further information:**

Big Lottery Fund BASIS: Re-opens

BASIS (Building and Sustaining Infrastructure Services) seeks to improve the support available to voluntary and community sector organisations. £50m is available with grants ranging from £10,001 to £500,000 for projects within one region or £750,000 for England-wide bids. Capital up to £50,000 only.

Following the programme's first round, the Big Lottery Fund consulted third sector organisations on their preferences for funding under round two. As a result of this consultation, the programme's guidelines have been re-focused. There are three priorities for the South East:

- 1. One regional project will be funded to improve the representation of the view of the VCS
- 2. One regional project to provide infrastructure services for the VCS supporting disabled people
- 3. 12 projects will be funded that target areas of high deprivation or communities that have the greatest infrastructure needs

Examples of the types of projects that will be supported for all-England projects include:

- assisting organisations that run family learning services;
- benefiting black and minority ethnic led infrastructure organisations;
- improving services that enhance the development and viability of social enterprises
- improving the ability to support participation in effective neighbourhood governance

The deadline for applications is 27 August. **Further information**:

Social Enterprise Investment Fund: Re-opens

Round two of this Fund is now open to applications from social enterprises looking to provide services across health and social care.

The objectives of the fund are:

- Support the delivery by social enterprises of health and/or social care services
- Provide start-up funding and longer-term investment to emerging and existing social enterprises in the health and social care sector

The government defines a social enterprise as 'a business with primarily social objectives whose surpluses are principally reinvested for that purpose in the business or the community, rather than being driven by the need to maximise profit for shareholders and owners'.

In 2008-09, £11m capital and £6m revenue funding is available.

There is no minimum amount of funding an organisation can apply for, but there is a maximum any one investment of £10,000,000.

The deadline for applications is 31 July. Further information:

- Providing bespoke training and learning opportunities
- Supporting initiatives which promote financial inclusion
- Promoting volunteering & healthy lifestyles

The scheme is administered by Dover District Council. **Further information**:

Esmee Fairbairn: New Strands

The Foundation has launched two new schemes. These are a new funding strand based on Food and a Finance Fund.

The food strand aims to promote an understanding of the role of food in enhancing quality of life and supports work that influences policy and practice across a range of food-related areas, enabling as many people in the UK as possible to access, prepare and eat nutritious, sustainable food. The budget is £3m over 3 years.

The Finance Fund offers financing to projects or organisations that can demonstrate the need for investment and the capacity to manage the demands of non-grant funding. Arrangements could include loans, guarantees, equity or quasiequity finance. At this stage, the programme will not be open to unsolicited applications. Up to £15m will be available. **Further information**:
